The screenshot displays the PDF-Compressor application window. The main window shows a list of PDF files with their page counts and sizes. A settings dialog box is open, allowing users to customize the compression process. The dialog box includes a 'Preset Filter' dropdown set to 'Medium File Size (150 dpi images)' with a resulting size of 17.49 MB. It also features a 'Resolution' field set to 100 Pixels / inch and a 'JPEG Quality' slider. There are 'Apply to all', 'Cancel', and 'OK' buttons. The background of the application shows a scenic landscape with mountains and a lake.
